

Welcome to Second Grade at Legacy Traditional School,

Parents, the second grade team would like to thank you for enrolling your student in our school. We plan on having a great year and look forward to meeting you and your student. We would like to give you a quick look at the math concepts that your student will be learning next year, as they will be learning math at a third grade level. We hope by providing a list of key concepts your student will be able work on them over the summer. We have also listed some resources that you can use to create worksheets or find fun lessons to use to help your student. In addition to the few key concepts, we have provided some projects and curriculum information that your student will be responsible for completing this next academic year. Again thank you for choosing Legacy for your student's continued academic growth.

Second

Grade Team

## Key Math Concepts

- **Count by 1s, 2s, 5s, 10s, to 100**
- **Basic Addition and Subtraction with 1 digit**

4	4	3	8	5	9
+	+	+	—	—	—
8	6	4	2	1	3
12	10	7	6	4	6

- **Telling time to the hour**
- **Basic measurement (using a ruler to measure an inch)**

## Special Projects/Curriculum Notes

Each student will be responsible for completing one (1) book report and one (1) poem recitation for each grading period. They will get a packet at the beginning of each period that will give them more information regarding these projects.

**Spalding** is the phonics program taught at Legacy. It is different than what is taught in many other school systems. If you would like more information regarding the program the front office has a packet that you can pick up that will give you a preview of what your student will be learning. We will also be posting the packet online at [www.legacytraditional.org](http://www.legacytraditional.org) so you will be able to access it there as well. Some parents have also found the following youtube video (<http://www.youtube.com/watch?v=SMAQLW4hIEk&feature=related>) to be helpful in learning more about Spalding phonograms.

**Math Facts** are an important part of our students' education. They will take monthly testing for addition, subtraction, multiplication and division (when introduced). These tests are 100 problems and they are timed.

*(Over the summer is a great time to purchase flash cards and have your student practice with them.)*
