

SW Las Vegas Emergency Operations Plans

INTRODUCTION

Statement of Promulgation

This Emergency Operations Plan (EOP) has been prepared as an indication of Legacy Traditional School's commitment to emergency management and to aligning key staff roles and responsibilities to respond effectively to any and all hazards that threaten human life and property.

The plan and its contents applies to all Legacy Traditional School administrators, staff, students and others participating in protection, prevention, mitigation, preparedness, response and recovery efforts at the Legacy school Campus. Also, the plan has been developed with the full support of senior administration staff and the District School Board.

As a point of clarity, while this EOP is intended to capture specific authorities and represent best practices for managing from small to large scale incidents, it is not all-inclusive as many emergencies are unpredictable in nature. To be most effective in responding to emergencies, the plan will rely on reasonable and prudent human actions by all plan participants.

Approval Statement- Signature needed

This Legacy Traditional School EOP has been developed by the Legacy staff emergency planning committee in collaboration with community emergency partners to comply with the State of Nevada's Crisis and Emergency Response Model.
